1311	Springer		the group @ Bidouan/Sussex are ok w/ relocating (and compressing the foot print) and some of them want to leave as well. (meeting / conversation with: Burnett / Springer / Martin Wallace).
1314	Burnett		Chief is looking @ a CTC to load this - Springer's name was thrown in.
1315	Springer	Burnett	I am ok w/ this to enable the greater probability of success.
1317	Burnett	—	The plan that was approved and the mission which has not been changed - is what we are going with PLT are convinced they can do this through conversations / negotiation if injuries (public child/ officer) we need to be able to say we exhausted all other options / PLT)

			robust - have not seen a plan. Meeting yesterday saying OPS tired ^{but RCMP here to help} and adamant to take action on things. Point of peaceful resolution of this is over. need an action plan. RCMP Plan floated to Commissioner and given to DPP Commissioner the last part is selling it to OPS Chief. maintenance plan to be pushed out when done being worked on. Strategic overall plan includes OPS taking a break Unified command as it should have been a while ago. POU (RCMP) community involvement deployed w proper messaging (daily) ends w messaging "against the law"

utilization deescalation and negotiation before using a tactical approach.

OPP intell: no snuffies, guns but alot of families and kids (BOMP received yesterday = opp intell report)

1412 Wallace

this is no longer an OPS problem its a OPP provincial problem now.

1412 hi

the need is to make an Unified Command. knowledge of many SME's.

1414 O'Brien

give time for strategic piece for command to get all info and make the decisions add the POU piece, and take action.

1455	Kennedy		2 heavy tows + drivers identified drivers that can drive them. (need keys or get them made w VIN.
1457	Edwards		Paused beyond tomorrow morning - window of resources peak Friday and then dwindle.
1458	Burnett		We are not doing this operation without the proper resources.
1458	Wallace		may take - we proceed w this until we heard otherwise.
1500	Managan		OPP would be the quickest to go from Level 2 to Level 3.
1504	Clement		Cutting break lines - mitigates leaving guy inside? Plan initially was to not leave anyone in trucks (window puncher available) Perfada group have this intersection - word volatile has been used to describe

1515 1515 ¹⁵¹⁵	Burnett Kennedy		Abandoned trucks need to get them out as well. once we have the intersection modular fencing is one option.
1517	Ferguson		PLT has been working for days w loaders / their lawyer but never got permission they are willing to move up. → still working on plan approval. moved the "lead safe" truck out of intersection as a sign of good faith.
1520	Burnett		communication up to bosses that if PLT lose the trust again they will be done (negotiation price will be lost)
1523	Peel Pou London Rufin Pou		not comfortable going tactical when offering to leave. when we don't know what is inside the trucks - officer safety
